

#3

Worksheet to Assess Afternoon Basal

Guidelines:

- Eat a carb free lunch
- Avoid strenuous exercise on day of assessment
- At start of assessment lunch blood sugar must be under 250 (DO NOT GIVE CORRECTION)
- Blood sugar above 300 **STOP** assessment and give correction
- Blood sugar under 80 **STOP** assessment and treat
- Check BG every 1-2 hours throughout the afternoon (you may use sensor glucose readings instead of checking BG, if you have been wearing your sensor for at least 12 hours or longer)
- This assessment does NOT need to be done on consecutive days
